Measurement Issues in Family Demography

November 13 and 14, 2003

Natcher Center, Building 45, NIH Campus

The purpose of this conference is to describe why and how the measurement of family related demographic phenomena matters and to discuss and recommend how best to improve current data collection practices to more accurately depict family change and behavior. This conference is a follow-up to the workshop "Counting Couples: Improving Marriage, Divorce, Remarriage, and Cohabitation Data in the Federal Statistical System," held December 13 and 14, 2001 at the National Institutes of Health, Bethesda, MD.
